Determination Awards
Medical Program Award
Name

Medical Program Award

Definition

• The prestigious PAASHA Medical Program Award, established in 2009, recognizes the establishment of a new medical center, introduction of new services and programs, or installation of new medical equipment that provide or improve existing treatment options for children with pediatric cancer. This award aims to improve access and treatment options for children with pediatric cancer. PAASHA Medical Center Award is awarded once every two years.

• The award consists of a financial award of SAR 100,000, commemorative plaque, and attendance at the Award Gala.

Goals

Medical Program Award:

1. Improving treatment options for pediatric cancer
2. Improving access to treatment for pediatric cancer
3. Improving the national medical infrastructure and services

Target

• Medical centers or hospitals that treat children with pediatric cancer

Eligibility

• New medical center in Saudi Arabia
• Existing medical center that is introducing a new breakthrough equipment, program, technology or service
• Both government and private centers are eligible
• The center, program, equipment, technology or service must be introduced within the past 2 years

IMPORTANT:

• Receipt of other major awards does not preclude an applicant from eligibility for the award
